WORKING LIKE A DOG

Four men, an Engineer, an Accountant, a Chemist and an Office Worker were bragging about how smart their dogs were.

To show off, the Engineer called to his dog and said,

"T-Square, do your stuff." T-square trotted over to a desk, took out some paper and a pen and promptly drew a circle, a square and a triangle. Everyone agreed that was pretty smart.

The Accountant called his dog and said, "Slide Rule, do your stuff."

Slide Rule went out into the kitchen and returned with a dozen cookies. He divided them into 4 equal piles of 3 cookies each. Everyone agreed that was good.

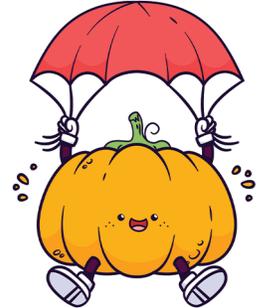

But the Chemist said his dog could do better. He called his dog and said, "Measure, do your stuff." Measure got up, walked over to the fridge, took out a quart of milk, got a 10 ounce glass from the cupboard and poured exactly 8 ounces without spilling a drop. Everyone agreed that was good.

Then the three men turned to the Office worker and said, "What can your dog do?"

The Office worker called to his dog and said, "Coffee Break, do your stuff." Coffee Break jumped to his feet, ate the cookies, drank the milk, read the paper, gossiped about the other three dogs, claimed he injured his back while doing so, filed a grievance report for unsafe working conditions, put in for Worker's Compensation and went home on sick leave.

 THE HISTORY CHANNEL

* On Nov. 24, 1947, the House of Representatives voted 346 to 17 to approve citations of contempt against 10 Hollywood writers, directors and producers who'd refused to cooperate at hearings dealing with communism in the movie industry held by the House Un-American Activities Committee. The men were sentenced to one year in jail.

* On Nov. 25, 2000, after passing a resolution earlier in the year, the United Nations General Assembly recognized the first International Day for the Elimination of Violence Against Women. The resolution marked the anniversary of the death of three sisters -- Patria, Minerva and Maria Teresa Mirabal -- who were murdered in the Dominican Republic in 1960.

* On Nov. 29, 2004, Japanese movie monster Godzilla, a mutant born of nuclear radiation fallout, got a star on the Hollywood Walk of Fame -- quite a present on his 50th birthday.

* On Nov. 26, 1968, Air Force 1st Lt. James P. Fleming and four other Bell UH-1F helicopter pilots received an urgent message from an Army Special Forces team pinned down by enemy fire. While the first rescue effort failed, Fleming, accompanied by a second pilot, managed to land and pick up the team before discovering upon return to his base that he was nearly out of fuel. He was eventually awarded the Medal of Honor for his actions.

* On Nov. 27, 2015, Pope Francis released a progressive-rock album titled "Pope Francis: Wake Up!" featuring excerpts of the pontiff sermonizing on subjects including peace, the environment and family, and hymns rearranged with guitar and synthesizer.

* On Nov. 30, 1965, attorney Ralph Nader published "Unsafe at Any Speed: The Designed-in Dangers of the American Automobile." An immediate best-seller, it also launched the passage of the National Traffic and Motor Vehicle Safety Act of 1966, seatbelt laws in 49 states and other road-safety initiatives.

It's almost the end of the year and time for your digital cleanup. The decluttering project almost everyone forgets—until their phone storage is full, their inbox is chaos, and every login feels like a scavenger hunt. The end of the year is the perfect checkpoint to clean things up so you can start fresh.

Begin with your inbox. Search for newsletters you never read, receipts you don't need, and notifications from apps you no longer use. Unsubscribe from anything that doesn't serve you anymore, then bulk delete old promos and updates. Create a few simple folders like Bills, Personal, and Work so important messages have a clear home going forward.

Next, tackle your files. On your computer, tablet, and phone, delete duplicate photos, blurry screenshots, and outdated documents. Move what matters into clearly labeled folders—by year, project, or topic. If there are files you'd be heartbroken to lose, this is your

Make Money On Purpose

"Year End Digital Cleanup" with Mike Lamb

reminder to back them up to an external drive or a reputable cloud service.

Then, review your apps and accounts. Remove apps you haven't opened in months. Turn off notifications that constantly interrupt you. While you're at it, update important passwords and enable two-factor authentication on key accounts like email, banking, and cloud storage.

Finally, clean up your digital "visual noise." Organize your desktop, clear old tabs and bookmarks you'll never visit again, and simplify your home screen so your most-used tools are front and center.

Digital clutter quietly drains time and focus. A few focused hours of cleanup before the end of the year

can make your devices feel new again, protect your information, and give you a calmer, more organized start to the year ahead.

If you don't declutter, there are risks.

Slower Devices & Reduced Productivity compounding into lost time and lower productivity.

Increased Security Risks - Neglect makes you more susceptible to data breaches, phishing, and identity theft.

Higher Stress & Mental Overload Digital mess is mental mess. A chaotic inbox, a crowded desktop, or a phone full of notifications adds invisible stress to your day making it harder to find what you need, make decisions, and stay focused.

Over time, even simple tasks feel harder than they should. So, declutter and make your life easier
